

RO PARTENER - WOODEN HOUSES OFFER

ROPartener builds for you first quality wooden houses in framing system made from prefabricated panels sandwich type. Because of their building system and materials, wooden houses ensure a high degree of thermal isolation and offer you all the comfort and safety that are necessary for a pleasant home.

Wooden Houses - Advantages

- Optimal seismic behavior
- Excellent thermal isolation - the equivalent of an 50 cm brick wall
- Fast execution and montage
- Low building and maintenance costs

These advantages make them suitable as permanent homes and also as holiday cottages.
